## 2023 Annual Country Report

**FULL REPORT**  
[Click Here](#)

### 2023 Highlights

WFP responded to the most protracted drought in southern Angola in 40 years, which led to high levels of **acute food insecurity** affecting **850,000 people**.

WFP's emergency response efforts, in collaboration with the Government and other partners, reached **159,000 people**, providing crucial food assistance, school meals, and nutrition support. WFP also scaled up its resilience activities for refugees from the Democratic Republic of Congo (DRC) and host communities.

WFP remained a **key development partner of the Government**, contributing to the development of food security policies and strategies, establishment of coordination mechanisms, and capacity building in school feeding, nutrition and vulnerability analysis and mapping.

### 2023 ACHIEVEMENTS IN NUMBERS

**158,994**  
total beneficiaries

Female  
**51 %**

Male  
**49 %**

FOOD DISTRIBUTED

**USD 2.97 M**

TRANSFERRED  
THROUGH COMMODITY  
VOUCHERS

■ planned ■ reached

### WFP's Presence

- 1 country office
- 3 sub-offices
- 7 provinces covered
- + national-level activities

### Operational Context – Strategic Outcomes

In contributing towards Sustainable Development Goal (SDG) 2 (Zero Hunger), strategic outcome 1 focuses on assisting refugees and other crisis-affected populations in meeting their basic food and nutrition requirements through conditional and unconditional food transfers, integrated nutrition support, and emergency school feeding activities.

Strategic outcome 2 is dedicated to supporting national policies and strengthening the capacity of the Government to advance the food security and nutrition agenda. WFP provides technical assistance to national institutions on school feeding, vulnerability assessment and analysis, and nutrition.

Working towards SDG 17 (Partnerships for the Goals), strategic outcome 3 aims to ensure WFP's partners have access to its knowledge, expertise, and services to effectively prepare and respond to shocks. To this end, WFP provides on-demand supply chain services to humanitarian and development organisations and the Government of Angola.

## 2023 Annual Country Report

### Strategic Outcome 1

Refugees and other crisis-affected populations in Angola are able to meet their basic food and nutrition requirements during times of crisis

**158,994** vulnerable people reached through in-kind, school meals and nutrition assistance

**1,119 mt** of food distributed as part of food and nutrition assistance

**USD 2.97** million transferred through commodity voucher interventions

### Strategic Outcome 2

National Institutions in Angola have strengthened capacity to implement programs to improve food security and nutrition by 2024

**151** people trained on food security analysis and acute malnutrition treatment

**3** tools and products developed to strengthen national systems

### Strategic Outcome 3

Humanitarian and development actors and national systems have access to WFP expertise and services

**711,118** health products (malaria, HIV, TB and COVID-19) delivered

**1.06** million long-lasting insecticide nets distributed

**955 mt** of medical supplies timely delivered

**537** health facilities in two provinces reached

### Cross-cutting Results

Women and girls represented most of WFP's beneficiaries (**51 percent**). Whenever possible, WFP prioritized them for assistance, aiming for **transformative results** that increased their decision-making power and boosted their resilience against shocks.

Affected people accessed WFP assistance in a **safe and dignified manner** through consultations, awareness sessions, and mechanisms for communities to provide feedback and ask questions. WFP trained its staff and partners on protection from sexual exploitation and abuse.

WFP procured food from local farmer associations and used fuel-efficient stoves to cook school meals, which **boosted local food systems** and **reduced WFP's carbon footprint**. WFP helped build capacity and systems to enable key actors to prepare and respond effectively to shocks.
